

Opportunity, Wellbeing, Liberty

PRESS RELEASE

FOR IMMEDIATE RELEASE: July 19, 2018

Mad as Hell Party seeking to contest November 2018 Victorian State Election

The time is now for a disruptive force in Victorian politics, independent of special interest groups and lobbyists

The Mad as Hell party is a radical, protest, reform movement that embraces the independent, principled, honest, inclusive and fair values of everyday Victorians, miles away from the cronyism, factionalism and privilege of the mainstream parties.

Getting Mad is only a start; the party is to focus on the challenges confronting Victoria well beyond the next election cycle, supporting the increasing numbers of vulnerable people who are being left behind, seeking to introduce a new type of politics and delivering on promises for a better life for ALL Victorians.

We'll be different, we'll deliver on our promises- Bringing Communities back to life; Families safe, secure at ease and celebrated: Gimme shelter for the homeless; Restoring regions to the centre of Government; Spending our hard earned money as our own; A force for change, including those left behind; Restoring trust and credibility to run the state ; Investing in a smarter future for ALL our children, being lucky won't last and Ageing with dignity, growing old is a blessing, not a death sentence

The money's there – there'd be a lot more of it if \$1.1Bn hadn't been squandered on a road to nowhere, up to \$10Bn splashed on 50 bridges in the sky and \$100ms outlays that are to be better spent elsewhere

We'll raise and spend our hard earned cash fairly, efficiently and honestly, calling out the rorts and the waste, supporting the vulnerable Victorians left behind, the homeless, mentally ill, disabled, indigenous, jobless and the addicted, prepared to show commitment and self help, to regain self esteem and re-enter and contribute to society.

The time is now for a disruptive force in Victorian politics, independent of special interest groups and lobbyists, earning and restoring trust, Government by, for and with ALL of US.

The party will call it as it is, shake up Spring Street and make it happen, with the immediate priority for like-minded Victorians to register early as members; we all become O.W.L.s, opportunity for all, not the few, restoring wellbeing to communities and regions and practicing the freedoms and values that we demand of our governments.

November is a month for Spring Cleaning, we'll make the 24th a date with destiny by Cleaning Spring Street.
